HOMER

Translated by E. V. Rieu

Two Coal Plants

- Each 850 MW
- Each \$2.3 billion

Dwight Brown

Former CEO of Cobb EMC

“For over a decade, **DWIGHT T. BROWN** engaged and participated in a pattern of racketeering activity that included, but was not limited to, the theft of millions of dollars from Cobb EMC, the theft of millions of dollars in patronage capital from Cobb EMC’s members (including Cobb County and the Cobb County School District), and false statements to conceal these thefts from Cobb EMC’s members.”

Dean Alford

Power 4 Georgians

The Tarbuttons

Kaolin Kings

My Predictions

- An entirely new board will be elected.
- The coal plants will be canceled.
- The Cobb EMC will embrace energy efficiency and maybe even renewables.
